

DAVID THEODOR NIMRICHTR

Medtech Student · Researcher · Organisation Leader

Oxford, United Kingdom • t@nimrichtr.cz • theo.nimrichtr.cz • linkedin.com/in/david-theodor-nimrichtr

PROFILE

Biomedical Sciences student at Oxford, currently leading Oxford's iGEM team and doing computational immunology research at the Weatherall Institute of Molecular Medicine. Co-founded a scholarship fund that has raised about £220K for Czech and Slovak students, and has run the European Youth Parliament Czech Republic (1,400+ students a year, \$80K+ turnover) as President. Also builds things on the side, including an ROV submarine and an open-source spectrometer, and does the fundraising and PR that goes with all of it.

EDUCATION

University of Oxford: MBiomedSci, Biomedical Sciences <i>Specialisation in Cell & Systems Physiology and Neuroscience. Fundraised £300K+ in tuition support</i>	2025 – present <i>Oxford, UK</i>
3rd Faculty of Medicine, Charles University: General Medicine <i>Completed full first year with top grades, then admitted to Oxford</i>	2024 – 2025 <i>Prague, CZ</i>
CTU in Prague: Computer Science (concurrent) <i>Completed full first year with top grades, then admitted to Oxford</i>	2024 – 2025 <i>Prague, CZ</i>
Gymnázium Pardubice, Dašická <i>8-year grammar school. Leaving exam: 100% Math, 100% Czech, A Biology/Physics/Chemistry/English</i>	2016 – 2024 <i>Pardubice, CZ</i>

LEADERSHIP EXPERIENCE

Oxford University iGEM Team <i>Co-founder & Team Leader (15 students)</i> Leading a 15-student team on a year-long project engineering bacteria in the bee gut to fight varroa mite and deformed wing virus. Also handling fundraising and the sponsor pitch deck.	2026 – present <i>Oxford, UK</i>
OxbridgeStipendium.org <i>Co-founder</i> Connect private sponsors with talented Czech and Slovak students who couldn't otherwise afford Oxbridge. Six students through so far, about £220K raised since January 2026. Covered by Forbes and national TV, and now lobbying government for a wider student loan system.	2025 – present <i>Czech Republic / UK</i>
European Youth Parliament Czech Republic <i>President & Vice-President (volunteer, non-profit)</i> Ran an organisation of about 100 volunteers putting on conferences for 1,400+ students a year. Wrote €200K+ in grant applications, handled the accounting and legal side (\$80K+ turnover), and represented the organisation abroad, meeting the Czech President, government ministers, MPs and MEPs along the way.	2021 – present <i>Czech Republic</i>

RESEARCH & TECHNICAL PROJECTS

Weatherall Institute of Molecular Medicine, Oxford: Computational T-cell Research Computational single-cell analysis of CD8+ T-cell inhibitory receptors, looking for better cancer and autoimmune therapies.	2026 – present
Research Submarine (ROV), 200m depth rating: Designer & Builder Designed, built and waterproofed it over four years, with custom motors, PCBs, camera and sampling gear. Placed 2nd at the SOČ science fair, Little Czech Brain and JVK.	2019 – 2023
Open-source 3D-printable UV–VIS–NIR spectrometer: Creator Now used in schools across Czechia. Presented it in the Chamber of Deputies of the Czech Parliament.	2022 – 2023
SenseTies.com: Co-founder (1st place, Oxford Edge Hackathon) An app that uses AI to read children's behaviour and support neurodivergent kids.	2025 – present
Microsoft Student Trainee Centre	2022 – 2024

HONOURS & AWARDS

CERTIFICATIONS & ADDITIONAL

Certified: Cambridge CAE (C2 English), CERN International Masterclasses, Microsoft STC graduate, Microsoft Azure (AI, Data, Fundamentals), Microsoft Office Specialist (Word, PowerPoint), Cisco Cybersecurity & IoT.

Technical: Clinical medicine, cell biology, biochemistry, genetics, computational biology, immunology, machine learning, full-stack development, fundraising, media and social media outreach.

Languages & interests: Czech (native), English (C2). 11 years of piano and violin, 6 years of folk dance, a few painting and writing awards, once organised an 80km ski traverse of the Trois Vallées on the Oxbridge Varsity trip, and self-hosts personal infrastructure (Nextcloud, OpenClaw, Navidrome).
